

MAINTENANCE SERVICE INQUIRY FORM FOR SSMT-TOOLS

To ensure the perfect function of your tool, we recommend to have preventive maintenance measures carried out at frequent intervals, which should save expensive repairs afterwards. The recommended date for the next maintenance can be found on the plate embedded in the toolbody. Our maintenance service includes following points:

- ✓ checking the tool for proper working condition
- ✓ removal of dirt, dust and chips
- ✓ lubrication of moving parts
- ✓ exchanging of small spare parts (adjustment screws, clamping screws...)

If you are interested in a non-binding offer, please send the completed form to **info@hollfelder-guehring.de**

This form can also be downloaded from our homepage <https://www.hollfelder-guehring.de/de/downloads.html> or **scan QR-Code** now.
